Note:

Conclusion: Other

(4) Mistaken identification  
of some conventional  
light or light over the  
city, with suggestion of  
influence from de-icing  
Lumilux Rose.

- ① Attached New Orleans City map  
shows Orleans was in the middle  
of a light area - with considerable  
illumination.
- ② No report of anything taken as a  
blimp from road, waterways or  
airports.
- ③ Unusual wide publicity given the  
famous "Lumilux" light "case" that  
broke from day light yesterday - and  
which remained in ~~dark~~ bright lights.
